**Magnetic Island Ferries  
COVID-19 Update – 14 April Media Release  
Amended service timetable  
Effective 18th April 2020**

Magnetic Island Ferries needs to inform our valued customers of a further temporary timetable amendment. Please refer to revised timetable herewith, effective Saturday 18th April 2020, until further notice.

This adjustment is vital for us to maintain the operations of essential services at this time. All travel must comply with Queensland Government COVID-19 legislation. If you are not certain what is considered essential travel, please refer to Queensland Health public health advice.

As we continue to navigate through these difficult times, we encourage you to book online if your travel is essential. This assists with reducing the risk of potential spread of the COVID-19 virus.

Please continue to refer to our website and social pages for further updates.

Your patience, cooperation and understanding of these new measures are appreciated as the COVID-19 implementations continue.
